

NORTH JERSEY ANTIQUE ENGINE & MACHINE CLUB

Interested in Old Machinery?

Why not join us! The North Jersey Antique Engine and Machine Club meets once a month right here at the Sussex County Fairgrounds (NJ State Fair). We meet on the second Thursday at 7 PM. During the winter months we meet at the Administration Building.

Club members restore and maintain old machinery, engines and tractors. We display and operate the machinery in our "Engine Shed". We strive to preserve our mechanical past and share our knowledge with other interested persons.

You do NOT need to be a mechanic! All you need is a desire to learn about old machinery and a willingness to "get your hands dirty" working and learning with us.

Our dues are \$25 per year for a single member or family. With your membership, you will receive our monthly newsletter *The Line Shaft*.

Why not fill out the form below and join us today. We would love to have you as a member.
