Founded on October 15th, 1979 by: Arthur Goble, Fred W. Westbrook, John Snook, Roy Bischoff & Lewis Quince

We started our January meeting with 33 members in attendance. Ann Marie gave the Financial report for January and the start of a new year.

A motion was floated out to the membership, by the club officers, looking for new officer blood. Unfortunately there were no takers and at least temporarily the incumbent officers were voted in. Congratulations, sort of, to our present officers.

John Regan gave a very informative talk on the John Deere PTO driven air pump. This pump became popular in the early 1930's as rubber tires replaced steel wheels. Used original pumps are available on eBay for about \$150.00.

Blace discussed the 1920s-1930s 3rd brush constant current charging generator. In addition to the two main brushes, a third and smaller brush is situated between the main brushes. The mechanical position of the third brush determines the output of the generator, which must be balanced against the load. These would later be replaced by electrically regulated generators.

Blace won the 50-50 and donated the monies back to the club.

REMINDER: 2014 DUES ARE DUE!
