North Jersey Antique Engine & Machine Club, Inc

Interested in old machinery?

Why not join us! Our club members restore, maintain, and educate each other and the public about old machinery, engines, and tractors. We display and operate in our "Engine Shed" at the Sussex County Fairgrounds throughout the year. We strive to preserve our mechanical past and remind current generations of how much has changed (and stayed the same).

You don't have to be a mechanic! You do need an interest in machinery and related equipment, willingness to get your hands dirty, and a desire to preserve these remarkable tools of the past.

The North Jersey Antique Engine & Machine Club meets once a month. During most of the year we meet in our building, for the winter months we meet in the Administration building.

Dues are $25 per year for a member / family. Membership includes our long running newsletter "The Lineshaft" and the ability to participate in club activities (Parades, Plow Days, exhibitions at the fairgrounds).

Fill out the form below and join us today!
